

DRIVEWAY STONE: PLANKS OR COBBLES

Two reclaimed-look driveway formats. Sixteen products, \$14.95 to \$40 per square foot.

Reclaimed driveway stone is one of our specialties, and it comes in two distinct formats: planks and cobbles. Each is its own look, and the choice comes down to visual and dimensional character as much as price. Whichever format fits the project — or both — Stone Curators carries the full range, from centuries-old reclaimed stone to quarried and zero-waste alternatives that read as reclaimed at a lower price point.
